Question. 1

You want to build an SAP HANA HDI calculation view of data category CUBE, but you get a "no measure defined" error. For the business requirement, a measure does not make sense. Besides changing the data category to DIMENSION, what do you have to do?

- A. Switch from a projection node to a star join node.
- B. Switch from a projection node to an aggregation node.
- C. Switch from an aggregation node to a projection node.
- D. Switch from an aggregation node to a star join node.

Answers C

Question. 2

You are following a top-down method for your SAP BW/4HANA modeling project. What is your first task?

- A. Check available sources in the SAP ERP system
- B. Determine if physical or logical objects will be needed
- C. Activate SAP Business Content
- D. Collect reporting requirements

Answers D

Question. 3

Which source types are available to create a generic DataSource in SAP ERP? Note: There are 3 correct answers to this question.

- A. ABAP class method
- B. Database view
- C. SAP query
- D. ABAP function module
- E. HDI Calculation View

Answers B C D

Question. 4

What is the request handling default setting for error handling in a data transfer process (DTP) in SAP BW/4HANA?

- A. Request is canceled, first incorrect record is tracked, and target is not updated.
- B. Request is set to failed, error stack is written, and valid records are updated.
- C. Request is set to success, error stack is written, and valid records are updated.
- D. Request is canceled, records are not tracked, and target is not updated.

Answers D

Question. 5

You created an Open ODS View on an SAP HANA database table to virtually consume the data in SAP BW/4HANA. Real-time reporting requirements have now changed and you are asked to persist the data in SAP BW/4HANA. Which objects are created when using the "Generate Data Flow" function in the Open ODS View editor? Note: There are 3 correct answers to this question.

- A. Transformation
- B. SAP HANA calculation view
- C. Data source
- D. Data Store object (advanced)
- E. Composite Provider

Answers A C D
